**Patient Participation Group Member**

We are delighted to say that the Oakhill Medical Practice, Patient Participation Group (PPG) has reformed. The aim of the Group is to create a two-way constructive dialogue between ourselves (the patients) and the Practice.

As the Group develops there will be information posted on the PPG notice board, and on the Practice web site. However, to make it two-way there needs to be a channel for feed-back to the Practice. One way to facilitate this is to fill in the comment forms at reception, or attached to our notice board, and another is to write to me, care of the Practice, with your constructive comments. I will collect your letters, collate them & raise your comments at the next meeting. Alternatively, you can email me:

The Practice wishes to ensure that every aspect of our experience at Oakhill Medical Practice is as good as possible – so please do let me know what you think is currently **good** as well as the issues you'd like to see addressed.
