2. If you arrive more than 10 minutes late for any appointment, you may be asked to make another appointment.

## **ACCESS TO MEDICAL SERVICES**

### **1. Appointments on the day**

This is for patients who want to see a doctor fairly quickly. Please ring at 8am or soon after and keep trying if you don't get through immediately. Same day appointments are usually filled quite rapidly, but even if we are fully booked, we always try to ensure that people needing urgent care get seen. Tell the receptionists if you really need to be seen that day, and they will pass the message to the doctor on duty that can prioritise appointments.

### **2. Pre-Bookable Appointments**

If you do not need to be seen that day, it is possible to pre-book an appointment, for up to a month in advance. Where possible you can choose to see a particular Doctor or Nurse, but this may restrict your choice of appointment day or time, especially as not all staff work full-time in the practice.

### **3. Telephone Appointments**

If you just want advice, information about test results, or to discuss something with a doctor without visiting the surgery, you can book a telephone appointment. Please let us have a contact number (preferably a land line number rather than a mobile) in case we need to ring you back.

### **4. Home Visits**

These are for people who are genuinely house bound.

We can see several patients in surgery in the time it takes to do one home visit, so please do not ask for a visit inappropriately.

Requests for home visits should be made before 10am wherever possible.

### **5. Surgery Opening Hours** Monday – Friday 8 am to 6:30 pm

For appointments and all other enquiries please ring: **01246 296900**

For ordering of repeat prescriptions please ring medicine order line **01246 588860**

To check if results are back please ring **01246 296900** after 2pm

For further information on our services please go to our website: [www.oakhillmedicalpractice.co.uk](http://www.oakhillmedicalpractice.co.uk)

### **When We Are Closed**

If you need urgent medical attention when the surgery is closed, you should dial 111.

This will connect you to the NHS 111 service free of charge which is provided by a local organisation called Derbyshire Health United.

You will be assessed and directed to the most appropriate point of care for your particular needs.
